Lost And Found

Reference number pt0057

Lost and found,
lost and found.
If you've a mind to play, I am inclined to play.
Wanna play lost and found?

Well, then here I am
on the lam.
This is the kind of game you play to win
and now you've found me in your bed.
And though the rule book says to turn me in,
why don't I turn you on instead?

Teasing lips,
pleasing thighs
easy on
private eyes.
If you're not celibate, we could raise hell a bit.
Why don't you call my bluff?

Don't resist,
you won't know what you've missed...
You'll never tame me
but you can claim me
at the lost and found.
