## You Made Me Think You Were In Love

Reference number PT0194

You made me think you were in love,  
you made me think that I was all you'd need,  
you made me think you were in love,  
I could've sworn you'd give the world to be mine  
looked that way till you called today.

You made me think you were in love,  
you could've used your charm on someone else,  
you made me think you were the one,  
you know I built a lot of dreams on your smile,  
how can you do the things you do.

Last thing at night you used to call me as soon as you woke up,  
you called me  
I made you laugh  
and we both liked the same things.  
You always looked happy  
very happy.

Whatever you wanted I thought I could give you.

I ought to hate you but I want you even more.  
What did you do it for.

You made me think you were in love,  
We're both too old to play these kind of games.  
I should be sorry that I met you,  
You made me mad but I'm not over you yet,  
and I don't know if I can let it go.

You made me think you were in love,  
I thought I would be Mrs Sheldon Bloom  
I couldn't go through this again, it's very painful when you lose  
what you've got.  
I can see life's no friend to me.
