Let Me Die

Reference number PT0665

Good for advice
Great with a joke
Armed with the knack pleasing the folk.
Hit a punch-line send it flying without even really trying
can't believe they're really buying ev'ry word.
Make your way throughout the party standing in the lions den,
At the centre of the party on the outside looking in.

Can't anyone see through me include me on this ride.
Won't anyone come get me and let me inside?
'Cause I'm standing outside getting soaked in the rain,
watching ev'ryone through the pain.
Come get me, come get me.

Good for advice
Great with the host
Armed with a drink charmed with a toast.
Keep the conversation going
If you keep the liquor going
there's no way of them all knowing you're a fraud.
Keep on moving through the party like the way it's always been,
At the centre of the party on the outside looking in.

Can't anyone see through me include me on this ride.
Won't anyone come get me and let me inside?
'Cause I'm standing outside
Meanwhile nobody sees that I'm begging them through the freeze
Come get me, come get me and let me inside.
