Bring The Future Faster

Reference number PT0765

MONICA

It was hard to stay collected,
he was so much better than expected.
And it might just be a whim,
but I think I could go faster with him.

Every night I'm pacing in my moon stroom room.
And I think we can all presume
I'm pacing to the passing of my heart convulsing.
Buzz bang crash wizzle sizzle on
omatopoeias all around me.
Slam pop can't stop my head exploding
I am seriously overloading.
Bring the future faster
Bring the future faster
Deep in the dark of the heart of the night
my head is racing pacing nerves peaking
Relatively speaking don't know what I feel, but I know it's real.

I'm wearing a hole in the floor
so open up the door and let me out this room and soon!
And soon!
Bring the future faster
Bring the future faster
Gimme the new thing the next thing that's always the best thing.
A new view I have to breakthrough
to something new
to something new

The universe is spinning with another new beginning.
Bring the future faster.
Would you bring the future faster.
All I want is everything.
All I want is more!
